**Question :**
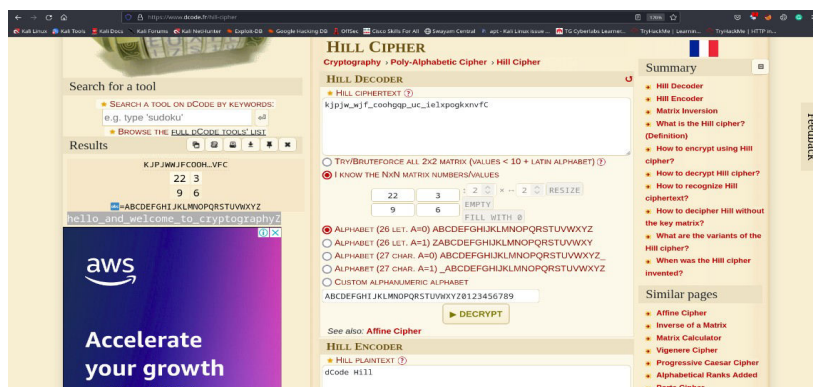

- Jack the ski jump instructor wants to teach the art of decryption on the hill slope.This is the note he left for the students. What does he wants to say to his students ?

- **kjpjw_wjf_coohgqp_uc_ielxpogkxnvfC**
- **22 3 9 6**

**Solution :**

- This challenge is based on **hill cipher encryption and decryption technique.**
- From the given question, the players can be able to view the **encrypted text created using hill cipher encryption along with matrix values.**
- Inorder to decrypt the text, search for "**hill cipher decrypter online**". We suggest **https://www.dcode.fr/hill-cipher** to visit the mentioned website for easy processing.
- Copy the encrypted text and paste in the respected space given. Also enter the matrix values in the alloted space.

- The above screenshot displays how the respective fields are filled and once after filling the fields, click decrypt button.
- The screenshot below displays the decrypted text highlighted at the left panel of the webpage....... Happy capturing.
- **NOTE :** Enclose the decrypted text with **BFF{decrypted text}.**
